

## **Egidio da Silva, MD**

Consultant Anaesthetist and Clinical Director, The Royal Orthopaedic Hospital

Dr. Egidio da Silva is a Consultant Anaesthetist and Clinical Director at The Royal Orthopaedic Hospital, where he plays a key role in leading anaesthetic services and contributing to the strategic and operational management of clinical care. His work spans perioperative medicine, anaesthesia, and critical care, with a strong focus on delivering safe, high-quality, and patient-centred services.

In his clinical practice, Dr. da Silva provides anaesthesia across a wide range of adult and paediatric orthopaedic and specialist procedures, supporting complex surgical pathways and multidisciplinary care. He is also actively involved in service development and clinical governance, helping to drive quality improvement and innovation within anaesthetic and perioperative services.

As Clinical Director, he provides leadership across departments, supporting effective service delivery, workforce development, and alignment with best clinical practice standards. His role includes fostering collaboration between teams and ensuring that clinical services are responsive, efficient, and continuously improving.

Dr. da Silva's professional focus is on advancing perioperative care and strengthening anaesthetic services through leadership, education, and clinical excellence within a specialist orthopaedic setting.
