

Ioana-Andreea Gheonea, MD, PhD

Professor of Radiology and Medical Imaging University of Medicine and Pharmacy of Craiova Craiova, Romania

Dr. Ioana-Andreea Gheonea is Professor of Radiology and Imaging at the University of Medicine and Pharmacy of Craiova. She serves on the Executive Council of the European Society of Radiology (ESR) and is the Coordinator of the ESR Young Radiologists Committee, overseeing two strategic subcommittees dedicated to Sustainability and Equity, Diversity & Inclusion (EDI). In these roles, she advances initiatives that support physician well-being, promote career development, and foster an inclusive and sustainable professional environment for early-career radiologists.

Dr. Gheonea previously served as President of the Romanian Society of Radiology and Imaging (2021–2023). She has represented Romania within the ESR through appointments to the Quality, Safety and Standards Committee and the Research Committee, and has been named Vice-President of the Radiology Specialty Committee for the Romanian Ministry of Health.

Her clinical and academic interests include abdominal imaging, breast imaging, artificial intelligence, and general radiology. Dr. Gheonea is committed to collaborative research, educational innovation, and strengthening clinical practice through multidisciplinary partnerships. Her work focuses on improving diagnostic pathways, enhancing radiology training, and supporting physician wellness within the imaging profession.
