

Professor Dorel Săndesc, MD, PhD

General Manager, „Pius Brinzeu" Emergency County Clinical Hospital Timișoara

Vice-Rector, "V. Babes" University of Medicine and Pharmacy, Timișoara

Past-President, Vice-President, Romanian Society of Anesthesia and Intensive Care

Professor Dorel Săndesc is one of Romania's leading specialists in Anesthesiology and Intensive Care Medicine. He is a Professor of Anesthesiology and Intensive Care at the "Victor Babeș" University of Medicine and Pharmacy in Timișoara and he is also Head of the Intensive Care Clinic at the County Emergency Clinical Hospital in Timișoara. He served as President of the Romanian Society of Anesthesia and Intensive Care.

Professor Săndesc completed advanced postgraduate training in leading European medical centers, including institutions in France, the Netherlands, and the United Kingdom, and further specialized in anesthesia and surgical critical care at the University Claude Bernard Lyon I in France. He also undertook professional training at Baylor University Medical Center in Dallas, USA.

Professor Săndesc is an active member of several prestigious national and international professional organizations, including the European Academy of Anaesthesiology and the European Society of Anaesthesiology. He has participated in numerous international scientific congresses and has been recognized for his contributions to critical care medicine, healthcare leadership, and medical education.

His professional interests include critical care, perioperative medicine, organ donation and transplantation, patient safety, and the advancement of evidence-based intensive care practices. Through his clinical, academic, and organizational activities, Professor Săndesc continues to contribute significantly to the improvement of healthcare standards in Romania and beyond.
