

Lachezar Svetozarov Dobrichkov, MD, MPH

Vascular and Endovascular Surgeon

“Sofiamed” University General Hospital, Sofia, Bulgaria

Dr. Lachezar Svetozarov Dobrichkov is a vascular and endovascular surgeon with extensive experience in the open, hybrid, and endovascular treatment of arterial and venous disease. He currently practices at “Sofiamed” University General Hospital in Sofia, Bulgaria, where his clinical work focuses on complex vascular pathology, advanced endovascular interventions, and multidisciplinary vascular care.

His expertise includes the treatment of carotid artery disease, abdominal aortic aneurysms, peripheral arterial disease, chronic mesenteric ischaemia, venous disorders, vascular trauma, and vascular malformations. He is experienced in advanced endovascular procedures including iliac and peripheral interventions, renal artery stenting, venous stenting, thrombectomy techniques, and endovascular management of dialysis vascular access. His professional interests also include chronic wound care, frailty, vascular ageing, and longevity medicine.

Dr. Dobrichkov completed his residency in Vascular Surgery at “Sofiamed” University General Hospital and holds a Master of Public Health and Healthcare Management from the Medical University of Sofia. He further advanced his training through a fellowship in Endovascular Surgery at the National Heart Hospital in Sofia and has participated in numerous international advanced vascular and endovascular training programmes across Europe.

Alongside his clinical practice, he is actively involved in scientific research and academic activities, particularly in the field of peripheral arterial disease and endovascular therapies. He is the author and co-author of multiple scientific publications and presentations presented at leading international vascular meetings, including the European Society for Vascular Surgery (ESVS), VEITH Symposium, Balkan Endovascular Course, and the Bulgarian National Society of Vascular and Endovascular Surgery and Angiology.

Dr. Dobrichkov is a member of several professional organisations, including the European Society for Vascular Surgery (ESVS), the European Society of Cardiovascular and Endovascular Surgery (ESCVS), and the Bulgarian National Society of Vascular and

Well – Being for Doctors
